Rapid Relief

Infant Transport Mattress Warmer

Rapid Relief

Safe, Portable Heating

The Rapid Relief gel-based Infant Transport Mattress helps warm infants during transport in or between hospitals. Upon activation, the mattress reaches a maximum temperature and maintains this temperature, providing comfort and safety. Made with patented Insta-Gel, the mattress is designed to comfortably reduce the risk of cold stress in infants whenever it's needed most.

Benefits

- Safe and comfortable: Gel-based for safe transport in or between hospitals
- Reduces cold stress: By keeping the infant warm during transport and in delivery

Features

- Single use minimizes the risk of infection
- Portable heat source, no electricity required
- Delivers approximately 39.5°C/103°F of warm therapy when activated at room temperature but will not exceed 40.5°C/105°F
- Easy activation disk
- Dimensions: 24.51 x 40.0 cm
- CE certifed for medical application
